

QUICK GUIDE

Digital teaching package in the Klett-Sprachen-App

First steps: Activation

1. To activate your digital edition please go to the **license portal** of Ernst Klett Sprachen:
<https://lizenz-portal.klett-sprachen.de>
Log in with your email address/user name
or create an account.
2. Activate your digital edition with the license code. After purchasing the digital edition, you will receive the license code by email. Please also check the SPAM folder.
Here you can see an example:

Ihr(e) Lizenzcode(s):
EKS-06FCQNHF3KWN7AT9N9EDRW23F7

3. **Install and open** the Klett-Sprachen-App on your computer / tablet (see below)
4. **Log in with the same access data that you used for the license portal.** Now you can access your digital edition.

The Klett-Sprachen-App: links

Windows, Mac, Linux

All links and information at
<https://www.klett-sprachen.de/klett-sprachen-app>

TIP!

You will find a detailed online guide on how to activate / register on the license portal at:
www.klett-sprachen.de/klett-sprachen-app

Using the teaching software in the classroom:

Navigation

On the start page you can see all the digital editions you have purchased. Open your digital teaching package by clicking on the preview picture. You will see all the chapters in the overview. You can open a chapter with another click.

 You can scroll through the pages of each chapter or select pages using the **extended toolbar**.

 You can also choose whether single pages or double pages should be displayed.

 In the **sidebar** on the left you can also view thumbnails of the pages.

Playing media files

You can play all **audio files and videos** directly by clicking on the corresponding symbol.

When playing the audio files, you can also choose between two slower playback speeds (70% and 85%).

For some titles you can click to view the **transcripts**.

Show exercises (incl. answers)

Exercises **with embedded answers** are marked by a **pencil symbol** on the book page. Click on this symbol to open the exercise in a separate window. A click on the answer button, will show you the correct answers.

Insert your own edits with the toolbar

There are various ways for you to edit texts, make notes, and add media and links to the book pages.

To do this, display the toolbar.

To insert content: first select the desired tool and then click the location on the page where you want to insert an audio file, for example.

- | | |
|-------------------|----------------------|
| 1. insert note | 7. insert line |
| 2. insert text | 8. record audio file |
| 3. pen | 9. record video |
| 4. marker pen | 10. insert link |
| 5. insert surface | 11. page masking |
| 6. insert ellipse | |

Save tool settings: When you change the default setting of a tool (e.g. colour or thickness), you can save this setting.

Delete editing: When you click on the edit, the option to delete it will appear in the upper right corner.

You can also use the icon at the top of the main menu to delete all edits for a chapter at one go.

Empty notes pages and bookmarks

- You can also save your notes (text or images) on an **empty notes page** and print them.
- To mark a page, you can **set bookmarks**.

Additional materials

- **Integrated additional materials** such as the teacher's handbook, photocopy templates and answers can be found by clicking on the symbol of the paperclip
- By clicking on the symbol of the small file you can also see at a glance all the **set bookmarks** and **your own edits** in the book.

Saving and downloading your own edits

Via the small cloud symbols you can **create your own edits and save them** and, for example, **download them on another device in the Klett-Sprachen-App**.

For this you will need an internet connection. Afterwards you can work offline with the digital teaching package.

General information

To log on and off in the Klett-Sprachen-App there must be an internet connection, also if you want to download chapters, contents and edits. Afterwards you can continue working offline.
